SA-15 Safety Master-G

NEW

EVO
Power White Evolution

Plastic-free paper box

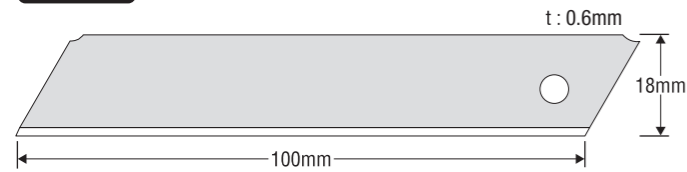

Safety lock prevents blade from accidentally popping out.

The SA-15 goes beyond the features of a typical safety knife. Unlike short-blade safety knives, the SA-15 can make deep cuts with the long, solid, thick blade, yet it still automatically retracts to protect against dangerous injuries. Safely cut at various depths with confidence using the KDS SA-15 safety knife.

Cutters

DRAGON GRIP MultiTip

“MultiTip” is an original term coined by KDS specifically for this product. Unlike standard utility knives, the G-18 and G-19 feature a built-in multi-purpose part called the MultiTip, integrated into the end of the handle. This MultiTip is designed for tucking carpet, prying open paint cans, scoring cardboard, hanging on a pegboard, and more—making it a true multi-function tool for professionals.

G-18 DRAGON GRIP MultiTip AutoLock G

Auto-lock cutter with automatic locking slider.
Equipped with a 0.6 mm-thick G-type Power Black Blade.

Cutters

SA-14 Safety Metal Pro

Even if the user forgets to release the slider, the cutter can still be used safely and effectively because the **CLICK**ed blade retracts automatically.

Useful for safely cutting strings!

A spare blade in the handle.
(Can be opened without any tool)

Self-Retracting safety knife provides an extra level of safety function. The blade automatically retracts when it loses contact with the cutting materials, even if the slider is kept at the forward position.

One blade loaded and one spare in the handle.

KDS® Evolution

An Evolution in Knife Blades
KDS introduces the world's finest blades!

SHARP EDGE
Designed for Maximum Sharpness

DURABLE EDGE
Designed for Maximum Durability

Why are EVO blades better?

Quality Steel

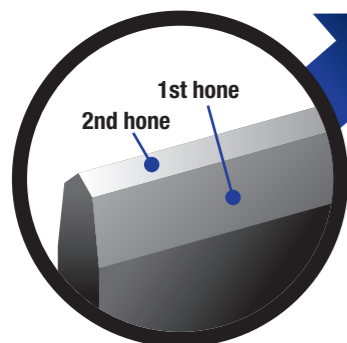

Only the best steel for the best blades!

Tempering

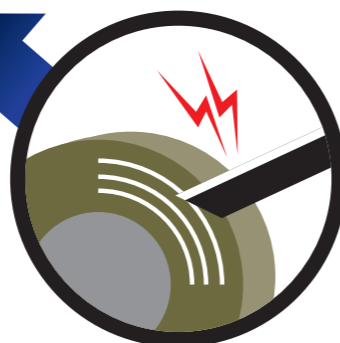

Tempered for the optimum balance of hardness and pliability.

Honing Angles

Double-honed, ideal for the job.

Grinding

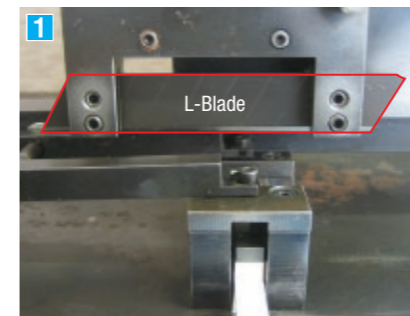

Ground for a smooth, clean cut.

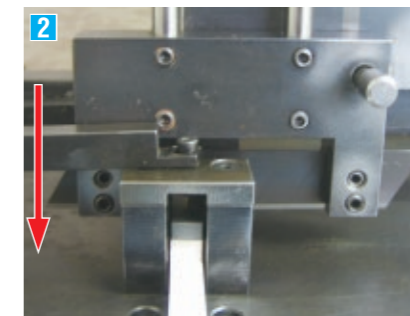

Paper cutting test

Purpose : To test Blade Sharpness and Durability

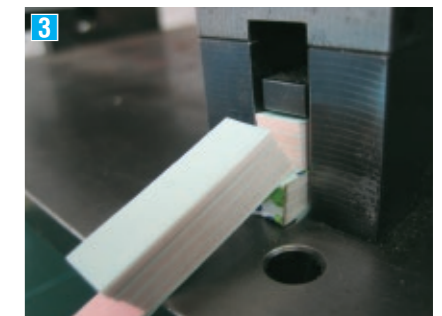

750g of weight is loaded on the blade, and the full blade is pulled through a stack of newsprint that is 7.5mm wide. After each pass, the number of cut sheets is measured. The test is repeated 32 times per blade.

Step 1 : Setting up a blade

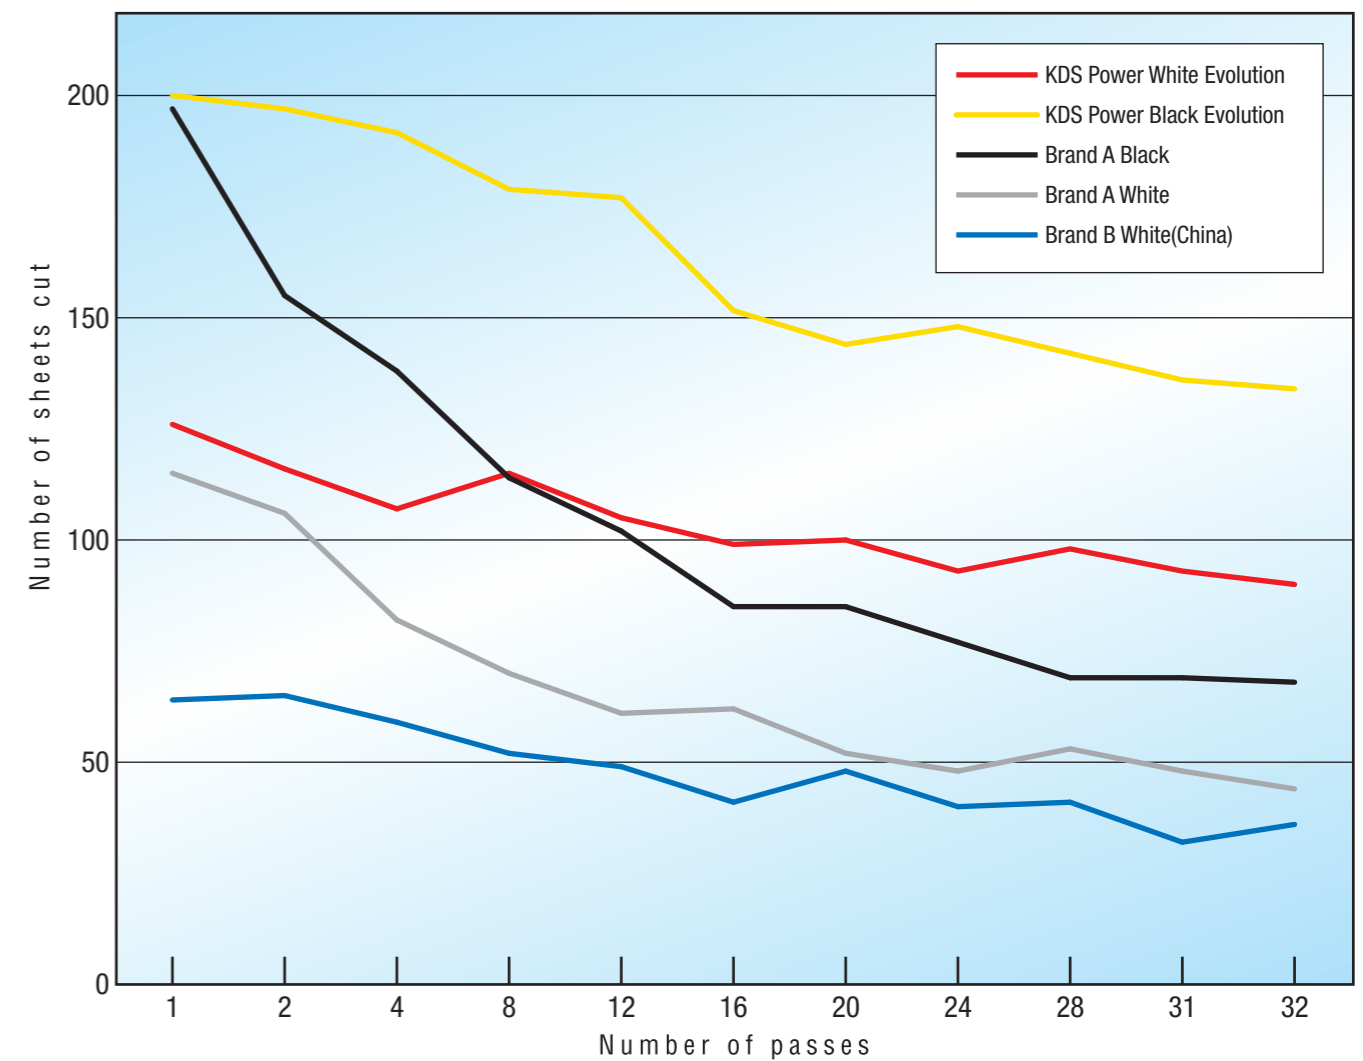

Step 2 : Cutting the paper with 750g weight

Step 3 : Measuring the cut sheets

TEST RESULT Based on our internal test Number of sheets cut and number of passes made

Choose the blade that's right for the job!

Safety-Bases

Safety-Bases e

Concern for our planet
Non-toxic if incinerated.
Made of Olefin resin.

From easy-to-use day-timer size to large desk size, choose the one that's best for you.

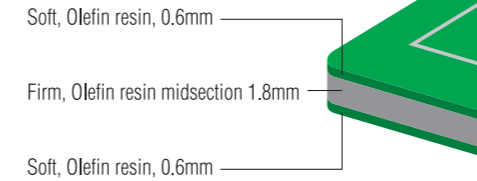

Takes an edge softly, keeps the media from slipping, protects your desk or table from scratches, and makes cutting safe.

Three environmental-E!

Use both sides! Lasts twice as long!

Made of Olefin resin. Rigid and lightweight. Efficient, 5mm grid lines.

GG Scraper

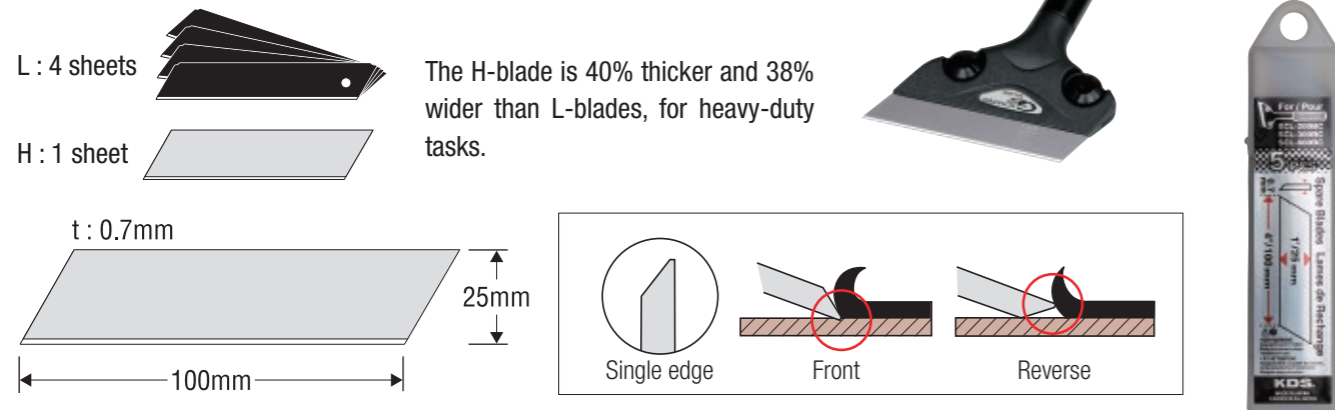

Recommended for removal of various materials, including wallpaper and tile, paint, gaskets, adhesives, and floor coverings.

- 1) Fluoroplastic-coated head prevents sticking and allows for easy cleaning.
- 2) No need for screwdrivers or coins, the thumb-locking screws keep the blade tight.
- 3) Three lengths to suit the specific job.

With 5 non-snap blades

The H-blade is 40% thicker and 38% wider than L-blades, for heavy-duty tasks.

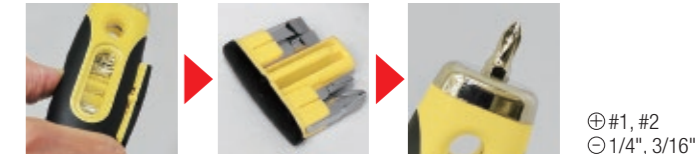

* H-type is dedicated blades for GG Scraper series.

Walking Measure

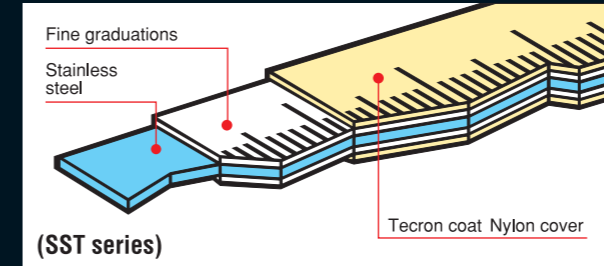

Walking-Measure is the industry's best choice for quick and easy measuring over a variety of surfaces and it accurately measures while you are walking. One person can measure faster than with a tape measure and you are not limited to length of the tapes.

Tracking Gauge

KDS Tracking Gauge TG-39 is a novel product, equipped with a transparent type optical sensor and a customized micro-computer, providing a digitally displayed tracking gauge that is especially effective in measuring the dimensions of a vehicle body and frame when being realigned.

Detection	Transparent Type Photo-Interrupter
Accuracy	±3 mm Including a Quantization Error
Min. unit:	0.001m (1 mm)
Measurement Range	In: 0.315 - 3.200 m Out: 1.050 - 3.900 m
Function	Stopping device for each pole, Stop lever in last pole, Zero-set, Hold, 10 Memory reference , Memory input, Display backlight, Selection of measuring unit, Inverse, Selection of automatic power-off, Memory clear
Power	4 pieces of R6 or LR6 Battery
Battery Life	About 45 hours in normal continuous use (Manganese Batteries are used)
Operable Temperature	0 to 40°C Celsius
Weight (Main Unit and Batteries)	1.7 kg
Dimensions	1,000 (L) × 44 (W) × 73 (H)
Accessories(Included)	Carrying Case, Four R6 Batteries, Two Holders, Three Types of Tip Attachment

The Digital Tracking Gauge, designed for use in automotive body work.

Weight	1.2kg	1.7kg	1.95kg	2.2kg	1.7kg	1.95kg
Detection	Transmissive Photo Interrupter					
Accuracy	±2mm(including quantization error)					
Min. unit	0.001m (1 mm)					
Display	Digital 6 digit, LCD display					
Operable Temperature	0 to 40°C Celsius					
Power	4 pieces of R6 or LR6 Battery					
Battery life	About 45 hours in normal continuous use (Manganese Batteries are used)					
Accessories	Exclusive carrying case, 4 pieces of R6 battery, Instruction Manual					
Function						
Memory references	10 memory				no	
Stopping device of each pole	Yes					
Stop lever in last pole	Yes					
Zero-set	Yes					
Hold (Temporary hold of displayed value)	Yes					
Inverse	Yes				no	
Automatic power saving	5 min, 30 min and cancellation				5 min	
Selection of measuring unit	Metric, inch, Sixteenths(1/16) and 10THS/100THS of feet				Metric only	
Display backlight	Yes					

Wooden Chisels / Planers

Wooden Chisels

KDS chisel blade and tang are made from carbon steel and are tempered and beveled, with a tough, impact - resistant plastic handle. Available in standard tang, and in eight special types for crafts, wood carving, and other elaborate work.

Planers

KDS brand planes are made from high grade carbon steel with a Japanese white oak body. No. 5710 is for chamfer molding, No. 5720 is for round molding, and No. 5730 is for micro planing. Blades are replaceable and can be sharpened. Available in various widths for elaborate work. Only in Japanese versions.
